

## Buffalo Hill Golf Club

E-News 6/17/19

### Good morning!

We're in full swing for the season - both on the golf course and in the clubhouse! Tournaments, groups, private banquet parties, Friday night BBQ's, and a host of other events including PGA Juniors, Junior Buffs, and adults clinics!!

We're still looking for feedback on the trees that are marked on #1. Those marked on the left hand side of the fairway are considered for removal, but they WILL NOT be removed without additional input from the membership and thorough discussion by the Greens Committee. So if you have some thoughts you'd like to share, please send Mike or myself an email. We appreciate your time to consider changes to the course.

Have a great week here at BHGC!

-- Steve Dunfee, General Manager

## Juniors are our future! Introduce kids to golf!

### **From the Golf Professional:**

This week is the last week of PGA Jr. League and it is a big one. Tuesday evening, we are hosting Indian Springs and Whitefish Lake on the Cameron 9. We will shut the course down at 3:00 so we can shotgun everyone at 5:00. On Sunday morning at 9:00 we are hosting the league Championship and should have the course open by 12:30 at the latest. Stop out and support the Buffalo Hill teams if you can!

**PING Demo Day** this Friday from 11:00-3:00! Please make an appointment in the golf shop if you wish to get fitted. Of course they will always take walk-ins, but appointments will have priority.

If you have an old speed cart that is just collecting dust but still in good shape, we would like to take it off your hands. It's time to replace some of our rental push carts and what better way to use those that aren't getting used. Based on the condition of the speed cart we would be happy to trade you for a Buffalo Hill gift card. Thanks!

-- Casey Keyser, PGA Head Professional

## Progress on the Greens...

This past week we cut areas of the paths that we will be removing. We will be placing gravel in there to smooth them out and then start the estimating process to see how much we can repave based on budget allocations.

Greens were verticut in the thin areas and seeded. We will be running a little extra water during the days in help establish some more grass. It's tough to establish when you mow at an 1/8".

Thanks

-- Michael Combs, CGCS
